General introduction xi

Part 1: Historical and theoretical aspects of frugivory and seed dispersal
Introduction 2
Howe, H.F., Specialized and generalized dispersal systems: where does 'the paradigm' stand? 3
Schupp, E.W., Quantity, quality and the effectiveness of seed dispersal by animals 15
Venable, D.L. & J.S. Brown, The population-dynamic functions of seed dispersal 31
Stiles, F.G. & L. Rosselli, Consumption of fruits of the Melastomataceae by birds: how diffuse is coevolution? 57
Charles-Dominique, P., Speciation and coevolution: an interpretation of frugivory phenomena 75
Jordano, P., Geographical ecology and variation of plantseed disperser interactions: southern Spanish junipers and frugivorous thrushes 85

Part 2: Plant strategies
Introduction 106
Fleming, T.H., D.L. Venable & L.G. Herrera M., Opportunism vs. specialization: the evolution of dispersal strategies in fleshy-fruited plants 107
Augspurger, C.K. & S.E. Franson, Consequences for seed distributions of intra-crob variation in wing-loading of wind-dispersed species 121
Sork, V.L., Evolutionary ecology of mast-seeding in temperate and tropical oaks (*Quercus* spp.) 133
Howe, H.F., Aspects of variation in a neotropical seed dispersal system 149
Wheelwright, N.T., Fruit size in a tropical tree species: variation, preference by birds, and heritability 163

Part 3: Frugivore strategies
Introduction 176
Loiselle, B.A. & J.G. Blake, Spatial distribution of understory fruit-eating birds and fruiting plants in a neotropical lowland wet forest 177
Traveset, A., Weak interactions between avian and insect frugivores: the case of *Pistacia terebinthus* L. (Anacardiaceae) 191
Martínez del Rio, C. & C. Restrepo, Ecological and behavioral consequences of digestion in frugivorous animals 205
Murray, K.G., K. Winnett-Murray, E.A. Cromie, M. Minor & E. Meyers, The influence of seed packaging and fruit color on feeding preferences of American robins 217
Stiles, E.W., The influence of pulp lipids on fruit preference by birds 227
Gautier-Hion, A., J.-P. Gautier & F. Maisels, Seed dispersal versus seed predation: an inter-site comparison of two related African monkeys 237
Estrada, A., R. Coates-Estrada, D. Meritt, Jr., S. Montiel & D. Curiel, Patterns of frugivore species richness and abundance in forest islands and in agricultural habitats at Los Tuxtlas, Mexico 245

Part 4: Consequences of seed dispersal
Introduction 260
Willson, M.F., Dispersal mode, seed shadows, and colonization patterns 261
Hamrick, J.L., D.A. Murawski & J.D. Nason, The influence of seed dispersal mechanisms on the genetic structure of tropical tree populations 281
Martínez-Ramos, M. & A. Soto-Castro, Seed rain and advanced regeneration in a tropical rain forest 299
Guevara, S. & J. Laborde, Monitoring seed dispersal at isolated standing trees in tropical pastures: consequences for local species availability 319

Gorchov, D.L., F. Cornejo, C. Ascorra & M. Jaramillo, The role of seed dispersal in the natural regeneration of rain forest after strip-cutting in the Peruvian Amazon 339
Horvitz, C.C. & J. Le Corff, Spatial scale and dispersion pattern of ant- and bird-dispersed herbs in two tropical lowland rain forests 351
Byrne, M.M. & D.J. Levey, Removal of seeds from frugivore defecations by ants in a Costa Rican rain forest 363
Terborgh, J., E. Losos, M.P. Riley & M. Bolaños Riley, Predation by vertebrates and invertebrates on the seeds of five canopy tree species of an Amazonian forest 375
